

COVID UPDATE

November 21, 2020

As we gratefully head into the holiday season, I wanted to take a moment to update you on our Covid protocols and results thus far.

We have been following our Safer Studio™ standards every step of the way through this season and continue to do so. Our team members have work-from-home capabilities, we are tech-enabled with virtual options, and we have always limited the number of people in our offices and studios.

We have had over 2,000 visits to our studio since re-opening and ZERO isolated reported cases of COVID-19.

Our strong focus on safety has made it possible to maintain a very low-risk environment while allowing our young people to benefit from exercise and friendship as well as the associated positive benefits of social-emotional and mental well-being.

We are proud to continue to be a positive anchor in the lives of our local youth and we look forward to seeing and supporting your children in classes each week. Thank you for joining us in doing all you can to keep our staff and students safe by wearing face coverings, keeping the recommended distance from friends and classmates, washing your hands, and staying home if you are unwell. YOU have made it possible for our little arts community to come together safely and happily.

1 TIME

Students are scheduled to **REMAIN** in one dance room for the duration of their classes, and parents are encouraged to drop off and pick up promptly to **MINIMIZE** wait time in the building. Our lobby remains closed—please observe from outside only and avoid gathering.

2 SPACE

Classes have reduced **CAPACITY** in order to maintain safe distance and have been **MODIFIED** to avoid hand-holding, high fives, hugs etc. Students will be directed to use **SEPARATE** exits/entrances wherever possible.

3 PEOPLE

Students and staff alike are requested to stay home if they are ill or have been exposed to someone who is ill. Extensive hand **HYGIENE** practices are in place and masks are in use where appropriate. Staff **WELLNESS** is reviewed regularly.

4 PLACE

Anti-viral HVAC filters are in place as well as increased **CLEANING** protocols. High touch areas will be **SANITIZED** between uses with shutdowns periodically for deeper cleaning.

LET'S HELP STOP THE SPREAD OF COVID19!

- Wear your mask at all times
- Sanitize or wash your hands frequently
- Keep two "tutus" between you and others
- Keep your bag separated from others

LET'S HELP STOP THE SPREAD OF COVID19!
